

# Battery Capacity Tester

- Check performance of 12V or 24V battery
- Tests • Ah • CCA • IEC • DIN • EN standard battery

MS-886(10)

## Advantages:

- Using a 4 terminal measurement method to achieve accurate results.
- Super fast 'ON LOAD' test, just finish in a second!
- Less harmful to the battery when during each test.

## Specifications:

- Operate with 1 pc. 9V battery.
- Tests 12V / 24V battery.
- Selectable Ah (Ampere per hour) / CCA / IEC / DIN / EN Cranking Amp. standard for different battery.
- Additional 'Ah' (Ampere per hour) test selectable from 1A ~ 200A.
- Additional CCA test selectable from 1A ~ 50A for various kinds of battery.
- Measure battery capacity with voltage, impedance and cranking current.
- Check starting crank voltage drop of the battery (for 12V battery only).
- Check open voltage, ON load voltage of the battery.
- Check charging condition of the alternator.
- Quick and simple LED test results indication after each test.

- Features and specifications are subject to change without prior notice.
