Moisture and Thermal Tracer

WiFi Connectivity

AP / Hot Spot Connection
Android
STA Router Connection
Apple
Window PC

- Thermal/ Visual Camera
- Monitor
- Temp. Alarm
- Data Logger
- Remote Control
- Triple Object temp.
- Date / Time
- 32GB micro SD Card Storage
- Dual Mode Wifi Connectivity
- Auto capture seepage water
- Auto trace Hot/ Cold leaks

Thermal Tracer
MS-WITC3
(3 in 1)

Moisture temp. differential detection

3 in 1
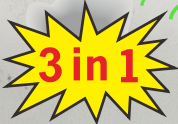

① Thermal object / surface temp.

② Auto trace Hot / Cold leaks

③ Distance measure

Moisture and Thermal Meter (Pin Type Sensor)
MS-WITC3M
(4 in 1)

Pin type

4 in 1

① Thermal object / surface temp.

② Auto trace Hot / Cold leaks

③ Distance measure

④ Pin type surface moisture measure

Remote pin sensor

## Moisture and Thermal Tracer (Dual Moisture Sensor)
MS-WITC3MT
(6 in 1)

6 in 1

① Thermal object / surface temp.

② Auto trace Hot / Cold leaks

③ Distance measure

④ Pin type surface moisture measure

Unique! ⑤ Pin type Relative Surface Trace (RST) moisture

Unique! ⑥ Relative Penetrate Trace (RPT) moisture

Remote pin sensor

Wide Applications

Through thermal sensor detect moisture temp. VS walls / ceiling / floor temp. to find the moisture location

Pin type sensor measure surface moisture content

Through remote pin sensor locate moisture where hard to reach area

Through 'Relative Surface Trace' 'RST' mode, locate the highest moisture content on concrete

Through 'Relative Penetrate Trace' 'RPT' mode, locate the highest moisture content under the tile / Marble (MS-WITC3MT model only)

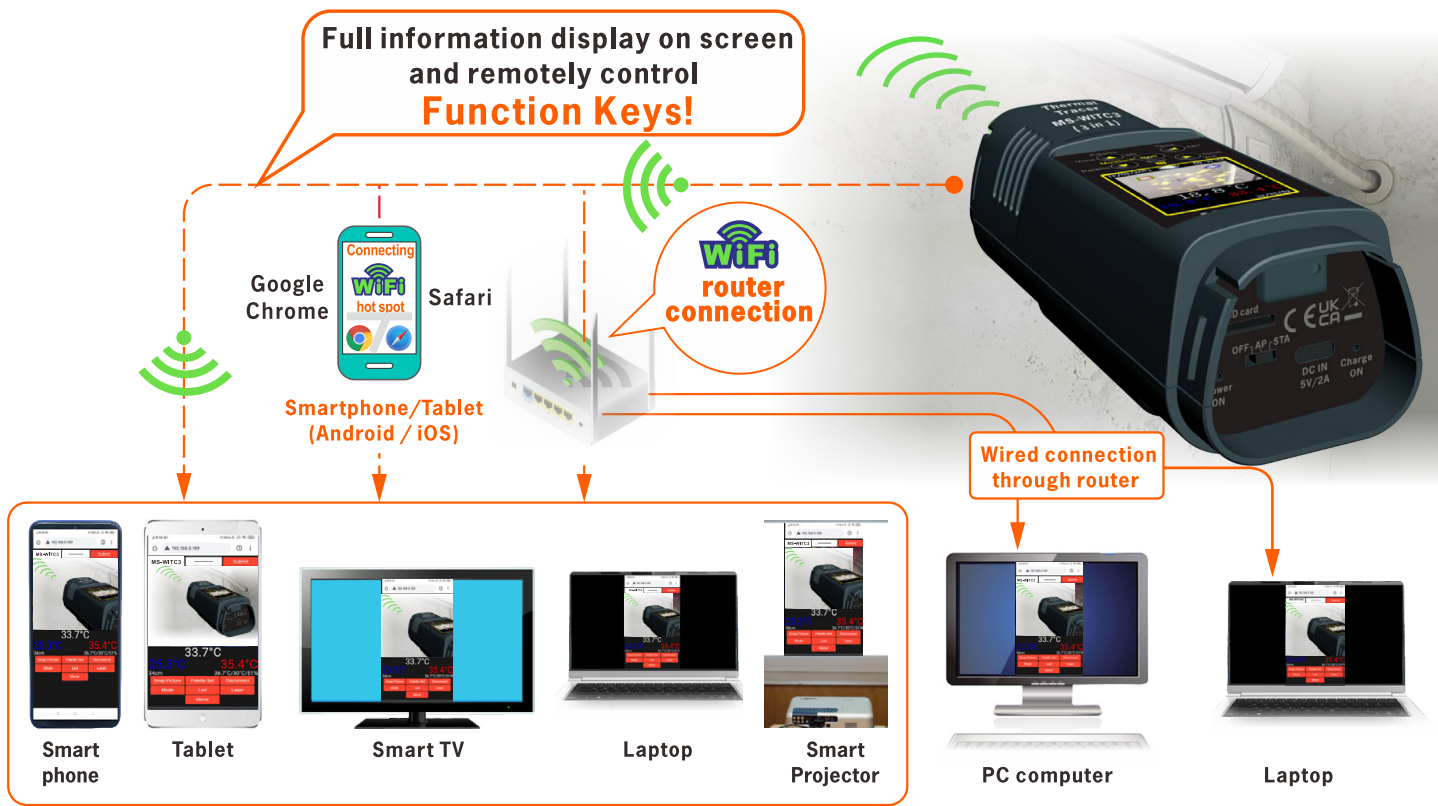

Through Wifi and telescopic rod measure or trace the moisture where hard to reach area

WiFi Connectivity

Enable 24 / 7 / 365 continuously monitor, real time snap and store pictures with data measured into micro SD card / through hot spot of Smartphone or WiFi router connection to PC / Tablet / Smartphone

Full information display on screen and remotely control **Function Keys!**

Google Chrome / Safari

Connecting WiFi hot spot

Smartphone/Tablet (Android / iOS)

WiFi router connection

Wired connection through router

Smart phone | Tablet | Smart TV | Laptop | Smart Projector | PC computer | Laptop

*Installed browser in Smart TV or projector
